MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Communications Intelligence Support for the Voice of America
with Regard to Soviet Jamming

1. In connection with this subject, and in the light of NSC 66 and the pertinent report of an ad hoc committee of the IAC which I understand is now before the IAC for consideration, I addressed to Rear Admiral L.C. Stevens, on 11 July 1950, a memorandum outlining AFSA's interest in the subject and making certain proposals based thereon. A copy of this memorandum was furnished you at the time.

2. I should appreciate your comments concerning my proposals, particularly that any communications intelligence activities required in support of VOA be conducted under the direction of AFSA; and the suggestion that the communications intelligence aspects of the question be considered by USCIB for recommendations to the National Security Council. I desire your comment particularly because these matters have been briefly discussed by the Armed Forces Security Agency Council, and it appears that this Council should soon give further consideration to my proposals on this subject.
